

HELLO. THIS IS...

An Invitation to Explore Marketing

WITH SampleOn

Dear Business Owner,

We can both agree that marketing is to our businesses what air is to us. It is not a luxury but a necessity. As a part of a team consisting of small business owners, who have built the SampleOn marketing platform we can assure you that we have your best interest at heart. SampleOn is bringing centuries old, proven analog marketing method on a 21st century digital platform.

Most small businesses are on a marketing budget and our options are limited. We usually resort to Banners, Flyers, A-Stand or Direct Mail Campaigns for our marketing. Most of these mediums simply do not work and end up as a waste.

SampleOn provides an **attention getting** tactic for promoting your products, services and/or events. You simply substitute the cost of traditional marketing with a few samples and watch it go to work for you.

Thank you.
Sincerely
Team SampleOn
